HAD ECZEMA TWENTY YEARS

And Was Cured Completely in Two Weeks Time by the Use of Goodhair Soap.

"Gentlemen: I have been sick, I may say, for the last 20 years; went to Hot Springs, St. Paul, Minn., and Indiana and was benefited while there but when I came home it was the same old story. My God, I would lie awake at night and scratch until I was weak and exhausted. Then I might sleep for an hour, but my sleep would only be the cause of more torture when I would wake up. My itching seems to be the worst on my head, face, arms and legs. Sometimes the burning sensations are enough to drive me crazy. There are no sores of any kind on me, only a dry scaly skin, or it is raw and very tender. I have spent a fortune in medicine, have taken a box of 'I could not say how many bottles of medicine, but I HAVE DERIVED MORE BENEFIT FROM GOOD- HAIR SOAP THAN ANY OTHER I HAVE TAKEN IN SUCH A SHORT TIME. I CAN GO TO BED NOW AND STAY UNTIL I AM READY TO GET UP IN THE MORNING. SOME- THING I HAVE NOT DONE IN TEN OR FIFTEEN YEARS. I have told my friends of mine who are troubled, but they said they could not get that soap here. The drug clerk said he had not heard of it before. I shall never forget the kindness of Dr. Hughes of Garrett, Ind. He has done everything in his power for me. Everything he has heard of he has told me to do, and now through his kindness, AND YOUR WONDERFUL SOAP, I hope to spend a few happy and peaceful months on this earth. Hoping you will send me a box of Goodhair Soap at your convenience, I remain, with many thanks for your trouble."

butter, two cupfuls of sugar, one cupful of milk, yolks of four eggs, whites of three eggs, one-quarter of a teaspoonful of salt, one teaspoonful of vanilla, four cupfuls of flour, three rounded teaspoonfuls of baking powder. Bake in three thick or four thinner layers.

Filling for Marshmallow Cake.—For the filling, put one-half of a pound of marshmallow candies on an agate dish and place in the open oven until they have melted and run together. In the meantime make a boiled icing with one cupful of granulated sugar and one-third of a cupful of hot water boiled together until the syrup boils, then poured over the stiffly beaten white of one egg. Add the melted marshmallows and beat slowly for five minutes. Spread a number of marshmallows on a skewer and hold over the open fire until they puff up and begin to brown, then quickly place them around the edge of the cake.

COMMUNICATED

Editor Advocate:

Will you give me space in your columns for a brief "review" of Dr. King's communication on capital punishment, which appeared in your Friday's issue? I fully agree with Dr. King that capital punishment should be abolished without delay by our legislature, but my reasons are not the same as his in all respects.

My opposition to capital punishment is not based on the theory that society has no "right" to take away an offender's life in any case whatsoever. On the contrary I am prepared to concede that right—rather I would be willing to concede it—if I considered it necessary. And because I do not consider this form of punishment necessary at this stage of the world's progress—even if it has been necessary in the past—I hold that it is barbarous and inhuman and a reproach to our civilization.

I would urge this view with much greater earnestness and vehemence if I could contemplate the horrors of life imprisonment with more complacency. If I had to choose for myself between painless death and hopeless life imprisonment—which would I prefer? I know that you prefer, gentle reader? I know that human life is unspeakably sacred, and that the very words, "murder" and "murderer" are charged with horror. Nevertheless I was told by the late Cory Brady, who was deputy warden of the penitentiary during Gov. Campbell's term that the life prisoners in that institution were on the whole better prisoners and better men than the general run of prisoners, the fact being that in many of their cases their crime was committed under great provocation or great excitement and without the deliberate purpose that generally attaches to crimes of less degree. The late Warden E. G. Coffin also expressed the same fact to me in very positive terms. I am also persuaded that many cases of murder in the second degree come very near being cases of self defense.

And even in cases of murder in the first degree, I would not make imprisonment forever hopeless, as Dr. King proposes. A term of years in the penitentiary and the rest of the offender's life on parole ought to satisfy the demands of justice—even in cases where the prisoner's release would be a clear menace to the public peace and safety.

Although the abolition of capital punishment and the substitution of life imprisonment would not be as long a step in the evolution of civilization as a step in the right direction, and therefore I would rejoice to see such a step by our coming legislature.

To express my whole view in a single sentence, I hold that while it is both the "right" and the duty of society to inflict all necessary punishment on offenders, we should always exercise a humane spirit toward them that is the spirit of the Golden Rule, and should be careful to inflict no more punishment in any case than the public welfare demands, that we may be the children of our Father in heaven, for He maketh his sun to shine on the evil and on the good and sendeth rain on the just and on the unjust.

What would all the readers of the Advocate say to the proposition, that as society itself "evolves" and becomes more and more "progressive" in politics and civilization—the severe punishment of offenders become less and less necessary?

M. R. SCOTT.

short communication expressing sympathy with the thoughts which he has so forcefully brought out and, incidentally, to mention what we believe to be the most potent influences sustaining capital punishment.

We believe that the spirit which in- augurated and which now sustains capital punishment had its origin in the common, but waning, orthodox theology (inappropriately called Christian theology) relating to the divine law of punishment, which contends that the wicked are to be totally destroyed or endlessly tortured at the hands of a revengeful or weak Father of Creation. This doctrine stimulates a belief in the erroneous idea that punishment to be just must be meted out to destroy, obliterate or put out of the way, forever, a large number who fall guilty. This barbarous conception of God the Father has been, and is yet, in some localities preached to old and young alike, the principle being at variance with the doctrine of remedial or corrective punishment. For, if a judgment is designed to destroy or to perpetually torture, how can it be remedial in the case of the individual? It can only have remedial value as is an awe others having criminal tendencies.

We conclude that the teaching of one erroneous conception of the purpose of punishment begets another and that while this dogma relating to the interpretation of the divine law continues to mystify the minds of men, just so long will there be those who will undertake to defend the principle of capital punishment, regardless of reason, human sympathy or real Christian- ity.

It is possible that progressive Christians and humanitarians may become sufficiently active to abolish capital punishment, but it will not be done through the "old guard." Never. For revenge is a part of their erroneous but cherished religious conception of the God of creation. The true corrective principle must have its inception by those having minds free from beliefs in a God of revenge and who are imbued with the spirit of love and brotherly regard for the degenerate criminal, and who are willing to prepare the way for his regeneration if possible and, at the same time, to provide for the protection of society from the effects of the crimes of such unfor- tunates.

HEART and HOME TALKS by Barbara Boyd

Little Problems of The Home.

A Baby's Thanksgiving.

BABIES are wiser than you think. The modern baby is very wise, indeed. He holds a little Thanksgiving service all of his own, of which not many know, for few understand all that is going on inside his curly little head.

Before he came to this world he and the other babies talked about lots of things. Lots of stories and traditions are floating around baby-land. He had heard them all.

So, when he had carefully studied through half-closed eyes the family to which he had come he held a little Thanksgiving service. And this is what he gave thanks for:

"I'm thankful," he cooed, "that mother does not let all the company toss me up and down and chuck me in the ribs. It's no fun to be thrown up to the ceiling by some giant. It makes you feel as if the top of your head is coming off. And why I am supposed to want to laugh all the time, goodness knows. Nobody else laughs all the time. If somebody punched people in the stomach to make them laugh I don't believe they'd like it. I don't believe they'd laugh, either. But babies are pretty good-natured at the start. It's what's done to them that sours their temper.

"I'm thankful mother won't let them give me candy and cake and such stuff. 'Just a wee taste,' they say, and then they hold it before me and I can't resist it. But I feel awful queer and bad afterward, and I cry, and then people say I am naughty. Maybe grownups can stand such stuff, but my stomach isn't accus- tomed to it yet.

"I'm thankful," he cooed on, and the company said, "Isn't he a dear! See how good he is," which switched him off the Thanksgiving service for a minute, while he said to himself, "Of course, I am good. Why shouldn't I be good when nobody does any- thing to make me bad?"

"I'm thankful," he went on, "that mother puts just plain, simple clothes on me. What do I need of yards and yards of embroidery and lace and ribbon and such? I'm sweet enough as I am, at least she says so, and I can't see any use in all that fussy stuff. Dressing takes so long when a lot of gimcracks are put on, that a baby gets all tired out.

"I certainly am thankful that I got into a plain, sensible family, where I am fed simple, nourishing food, given plenty of fresh air and sunshine and kept quiet. I don't see any sense in people jumping at babies and making all kinds of queer faces at them and queer noises. A baby's nerves are kind of weak and sensitive yet, and that sort of thing is hard on them. Besides everything is so different here from babyland that I've a lot to learn. And when I grow up I've a lot to do, and I need to be strong and healthy. So I am glad they just let me eat and sleep and look about me and don't disturb me. I'm mighty thankful for such a beginning to life."

His Thanksgiving service ended, he fell asleep. One after another the guests tiptoed to look at him. "Isn't he a dear! And so good! And so well!" they chorused. A smile curved the dimpled lips, but he slept on.

Governor-elect Foss of Massachusetts, challenges Senator Lodge to submit his claims for a re-election to a vote of the people. If Lodge had a majority of the Legislature he could afford to treat this with levity, but as there are fourteen anti-Lodge Republicans in the Legislature, who with the Democrats constitute a majority, it is just possible that Mr. Lodge may think a popular vote might be the best way out of his dilemma. The situation is deemed all the more significant because it exists in that heretofore stronghold of stand-patism, the state of Massachusetts.

Colonel Roosevelt complacently regards his defeat and the general defeat of the party which he championed in the last election as a sign of progress. Whatever has been challenged in some of his utterances in the recent campaign, few will be disposed to dispute the truth of this assertion. There is progress, but it is not the kind of progress that Mr. Roosevelt stands for. His "New Nationalism" has been repudiated as reactionary and by no means progressive.

It seems a quite rational belief that the best way to eradicate murder is to take immediate and active steps to convict and abolish murderers. This is the method of the courts in Great Britain. As a result the proportion of murders in that country is as one to five in the United States.

THE NEW UNITED DEMOCRACY
(New York World.)
Not in Tilden's time or in Cleveland's time was the Democratic party so united as it is now.
Never before since the civil war has there been so general an agreement among the leaders and issues and opportunities.
We are almost prepared to say that for the first time in fifty years there is a coherent Democratic party which

Hood's Sarsaparilla

is sobered by victory and responsibility.
Even six months ago Democratic victory seemed to promise nothing better than Republican defeat and a popular rebuke of the party in power. But out of the welter of the campaign has come a new order of things. A new generation of leaders springs into being—Wilson of New Jersey, Dix of New York, Harmon of Ohio, Baldwin of Connecticut, Foss of Massachusetts, Plaisted of Maine. With them must be included Mayor Gaynor, who has pointed the way to the regeneration of municipal government.

These men are not mushroom agitators or political accidents. They belong to the breed of leaders whom men of intelligence can follow. They have already given to the Democratic party new standing, new stability and new character. That they should all have appeared on the scene simultaneously is another proof of the genius of American institutions to produce leadership when leadership becomes imperative. The way to the complete rehabilitation of the Democratic party is now so simple that it can be lost only by blind stupidity and folly. The trail is so plainly blazed that there can be no excuse for losing it. A Democratic Senator in Maine who represents what Plaisted represents; a Democratic Senator in New York who represents what Gaynor and Dix represent; a Democratic Senator in New Jersey who represents what Wilson represents; a Democratic Senator in Ohio who represents what Harmon represents; Democratic leadership in Congress that is sane, progressive and cautious—and the work of making a new Democratic party is done.

For the first time since Andrew Jackson's Administration the Democratic party is emancipated and master of its own destiny. All the shackles have been struck off. There is no load of sectional issues or dead issues or economic fallacies for it to struggle under. As secession followed slavery to the grave and silver followed secession, so the Bryan socialism has followed silver, and the Democratic slate is wiped clean. The party is back to first principles again, under leadership that is fit to lead.

For fifty years the greatest service of the Democracy has been that of a party of Opposition. At last the opportunity has come, under men like Wilson and Gaynor and Baldwin and Dix and Harmon and Foss and Plaisted, for it to be a party of constructive and progressive statesmanship.

Four years ago the World raised the question, "Shall the Democratic party die?" There is no mistaking the answer of the November elections.

Has Joseph G. Cannon, frequently referred to as a Czar, fallen so low that he cannot even have the post of minority leader in the next house without a struggle? Many representatives are opposed to giving him even that honor, and Mr. Mann of Illinois has been proposed as the leader on the Republican side in a Democratic house.

WHITE MAN
Killed Negro Cook After Being Attacked by Latter in a Camp Cooking Car.

Waverly, Nov. 26.—Fred Stamey, white commissary clerk of a Norfolk & Western Railway work camp, located here, shot and instantly killed John Gasty, the colored cook, in the cook camp car yesterday. Gasty, who was drunk, attacked Stamey with an iron poker, and the latter drew his revolver and fired four bullets into Gasty's head and face. The shooting was witnessed by a number of railway employees who were being served with their dinner in the dining camp car.
Justice of the Peace Philip Gableman, acting as coroner, held an inquest and found that the shooting was in self-defense. He rendered a verdict of justifiable homicide and ordered Stamey, who had surrendered himself to the sheriff, to be released. Stamey, whose home is in Calix, W. Va., is 21 years old, while Gasty, whose residence is unknown, was 39.
Another fatal shooting occurred at the same camp yesterday when, following a dispute over a game of craps, John Hoskins, a North Carolina negro, aged 21, was shot in the back by Walter Christfield, the bullet lodging under the heart and the wound being pronounced fatal.
Christfield made his escape and has not been apprehended.
The 36 negroes employed at the camp received their pay from the railroad Wednesday and most of them spent Thanksgiving at Chillicothe, the only well municipally south of Columbus on the N. & W., laying in a supply of liquor, and have since been holding a carnival of revelry and fight. Only eight of them reported for work yesterday.

Granville, Nov. 26.—Mrs. Carney, wife of Prof. Frank Carney, delightfully entertained a number of the girls remaining in the village over the Thanksgiving vacation, at her home on the Hill Friday afternoon with a sewing party. Those present were: Misses Margaret McKibben, Ruth McKibben, Annette Besuden of Newark, Cecil Shreve, Harriet Haggard, Faye McKinley, Genevieve Mead, Doe Schuman of Covington, Ky., who is a guest of Miss Hespera Hougham, Mary Lemon, Virginia Crawford, Ruth Bryant, Alice Warner, Hester Carney and Marion Rose.
A special meeting of Center Star Lodge, No. 13, F. and A. M., of this place was held Friday night for the purpose of conferring the E. A. degree on several candidates. There was a good attendance of the members and the degree was conferred in a highly satisfactory manner.

The funeral of the late Harvey Lawyer, who died at his home on North Granger street Wednesday evening, was held Saturday morning at the home at 10:30 o'clock, the services being conducted by the Rev. C. J. Baldwin, pastor of the Baptist church. There was a large attendance of the relatives and friends of the deceased. The interment was made in the Maple Grove cemetery.

A meeting of the past masters, F. & A. M., will be held in the lodge room of Center Star lodge, F. & A. M., Saturday evening, when the past master's degree will be conferred on Prof. Rodebrecht.

The entertainment to be given under the auspices of the Daughters of the American Revolution at the opera house on next Wednesday evening, is to be one of the finest entertainments of the season, and it is creating quite a furore in dramatic circles. The title of the play, which is to be presented by Mr. Victor Hoppe, is "The Man From Home." Mr. Hoppe has a reputation that will undoubtedly attract a large number of people who are aware of his talents.

One of the most delightful social events of the past week in college circles was the entertainment of a number of the members of the Kappa Phi Sorority by Mrs. Hougham and Miss Hespera Hougham at a six o'clock dinner on Friday evening. Those present were: Misses Annette Besuden of Newark, Cecil Shreve, Margaret and Ruth McKibben, Faye McKinley, Harriet Haggard, Doe Schuman of Covington, Ky., Genevieve Mead, Alice Warner, Marion Rose and Hester Carney.

Many Granville people are considerably worked up over the advance in the price of gas, and they are considering the matter of organizing an independent company to supply gas for the village. Up in Johnstown a number of the business hustlers of that enterprising place have decided to organize a Home Gas Co. for the purpose of furnishing gas to the people of the town and vicinity at a low rate, and at this time the prospects are very encouraging. Quite a number have already taken stock and predict that there will be little work expended in selling stock enough to drill several wells. There is no reason why the people of Granville should not have cheap gas, located, as it is, in the very heart of the gas field.

Another November week full of interesting doings has slipped rapidly away, and the delights of the Thanksgiving social season have been indulged in to the fullest extent. After this week things will begin to shape up for the joys of December, with a scattering of weddings, and, next, in the merriment for the Yuletide season.

The Heisey Company has been busily engaged for some days in erecting a derrick on the David Owens farm, a short distance east of the village, on the old Newark and Granville road. The same company has made a location on the Robert McCann farm, adjoining the Owens farm on the west. The McCann place was formerly owned by A. M. Nichol.

The well being drilled on the J. M. Graham farm in Liberty township.

Clinton, Miss.—"Thanks to Cardui," writes Mrs. Lena Gresham, of this place, "I have been greatly relieved."

"I have received more benefit from seven bottles of Cardui, than from all the physicians."
Just try Cardui. That's all we ask. It speaks for itself. It has helped so many thousands, it must be able to help you.
Trying Cardui won't hurt you. It is safe, harmless, gentle in action, and purely vegetable.

Miss Ray Gilpatrick of Dayton is spending the Thanksgiving vacation at her home here. Miss Green, principal of the Dayton high school, is her guest while here.

BRADSTREET
In Weekly Review States That the Holiday Business is Above That of Last Year.

Bradstreet's Weekly Review of Trade says:
"Demand for holiday goods is becoming more prominent and developments in this respect are responsible for what expansion has occurred in trade this week. Novelties, jewelry and such articles appropriate to the season are in good request and the consensus of reports indicates that trade is in excess of last year.
"But, on the other hand, trade in general has become more irregular. This reordering from jobbers tends to wane as the season for inventory approaches and conservatism still acts as a check upon purchasing for spring accounts. Moreover, retail trade reports seem to have lost of the relative activity displayed last week. For instance the south as a whole reports a certain degree of betterment, due probably to the good movement of cotton at high prices, while warm weather hampers distribution of seasonal merchandise in the southwest, but in the north-west trade is quite active, save in North Dakota, where the crops were

short. In the central west trade shows a slight increase, but in the east the turnover is disappointing.
"Collections of the country over range from slow to good. Incidentally the improvement that was noticed in the iron and steel trades last week has been replaced by less optimistic views. For one thing, considerable disappointment is expressed at the slowness with which the railways are coming into the market for supplies and pig iron has turned somewhat quieter. Production is still being curtailed but the stocks continue to increase.
"Business failures in the United States for the week ending Nov. 24 were 212 against 248 last week, 217 in the like week of 1909, 193 in 1908, 258 in 1907 and 174 in 1906."

FATHER-IN-LAW OF VANDERBILT DEAD
New York, Nov. 26.—Richard T. Wilson, head of the firm of R. T. Wilson and company, bankers, died early today at his Fifth avenue mansion. His daughters, Mrs. Cornelius Vanderbilt and Mrs. Gordon Goebel, were at his bedside at the time, but his only son, R. T. Wilson, Jr., and his third daughter, Lady Herbert, wife of the former British ambassador to the United States, were enroute to this city from their homes.
Wilson was 79 years old and was born in Haverham county, Georgia. His estate is estimated at \$200,000.

THE LODGES

Home Guards of America.

Newark Home met Wednesday evening, Nov. 23, at the A. I. U. hall at 7:30. We were pleased to note the counting heads that we had with us some of our charter members, who have not been attending regularly. We need your help and we want to help you. We are determined to reach the 500 mark by Jan. 15. At the last meeting 19 candidates presented themselves for initiation and they were initiated and given the full degree. The work was put on by the degree team in a most exquisite way, after which a lunch was served in the dining room. Next Wednesday evening, Nov. 30, there will be a large class for initiation.

Knight of Pythias.

At the regular meeting of Newark Lodge No. 13, held Thursday evening, business of importance was transacted. Applications for membership were balloted on. The Page rank was conferred on one candidate. Next Thursday evening the Page and Esquire rank will be conferred. The proposition of a new castle hall is being discussed at every meeting, and it is a matter of business that every member attend these meetings, that you express your views and that you may know what the other fellow thinks in regard to the kind of a building and where it shall be erected. Brothers come out and give the directors of the Pythian Castle company all the assistance possible.

The regular meeting last Tuesday night was attended by about 50 members and visitors. After the routine work the page rank was conferred, followed by discussion of the several propositions which the Pythian Castle Company has on hand, and which will be decided definitely in the near future. While many are in favor of the location on the square for their castle hall, many want to still retain the lot on East Main street and build the hall there. The first one mentioned is, in the opinion of the writer, an ideal proposition, and one which should be investigated fully before deciding. The original site has its good points also. This will be further discussed next Tuesday night, and if you are interested now is the time to come. After the meeting this week a fine oyster supper was served.

White Cross Lodge of Johnstown at its meeting on Thursday night of this week conferred the page rank on four candidates and the rank of esquire on two candidates. At the close of the meeting refreshments were served.

Haymakers.

The next regular session of Minnewa Haymakers' Association, No. 52 1-2 will be held on Tuesday night, Nov. 29, and a good attendance of the members is desired, as this will be the regular nomination night for the officers for the next term. There will be several applications to be voted upon, and arrangements made for the work to be conferred at the regular meeting in December. Don't forget the date, next Tuesday night, Nov. 29.

Daughters of Veterans.

Tent 25 met last Tuesday evening with a good attendance and the president in the chair. We were honored by having with us our department inspector, Sister M. Estelle McMillon, who, after our regular order of business, took up the work and certainly gave us some very entertaining and most instructive remarks. We have progressed exceedingly well, as the baby tent, as our grades were far up among those who have lived many years longer than we. Certainly Tent 25 has come to stay, and now our object is to raise our membership and do all the sacred objects inculcated in our work. We wish to spread our cheerfulness far among our needy and worthy, and wish to cultivate the support of our worthy fellow men and women everywhere. We, as girls, feel our weakness, but with the grand support, inherited from our fathers' veins and our noble cause, the world failure dare not approach us, and we must win. We, as officers and members, regret very much the sad calling of our Comrade Babbitt, who has answered the last bugle call and gone to his eternal reward. It gave us great pleasure to cheer one of our dearly loved comrades with a Thanksgiving basket, which has been reported by the committee as most gratefully received, and he sent his love to us in return. We hope to have him with us many Thanksgivings yet to come. All our sick were with us at this meeting, and surely it has been one long to be remembered.

We are looking for a good attendance next Tuesday evening, as there will be important business to transact.

Modern Woodmen.

Cedar Camp, No. 4727, Modern Woodmen of America, met in regular session on Monday night, with 76 members present. Twenty applications for beneficial membership and one application for social membership were received and elected. The escort found in waiting W. H. Frankenberg, Rolia Anderson, Homer Wells, B. S. Young, Earl Peck, E. V. Stief, W. P. Lynch, Newton Arnold, Geo. A. Palmer and James Tracy, who were admitted and adopted as beneficial members of Cedar Camp. Neighbor T. L. Trovenger was reported having died on Saturday, Nov. 19, and Neighbors E. C. Richardson, Geo. L. Smith and D. D. Jones were appointed a committee to draft resolutions. Neighbors Julius Wintermantel and George H. Kureth were reported sick. Banker Kell, Consul Fisher and Adviser Brooks of Alexandria Camp, No. 6019, were present.

at last Monday night's meeting and made short remarks. On next Monday night a class will be adopted and a good many out of the members is desired. Forty-five beneficial certificates have been put in force already this month, and by next meeting we will have fifty beneficial certificates in force for the month of November. Neighbors, the time is getting short if you are not in on the prize contest and the big banquet that will be held at the close of this year's business, and if you hustle you will have time to get in on it yet. All that you have to do is to have an applicant adopted and that will entitle you to a chance on the prize contest and to a seat at the banquet. Now is the time to get busy and bring in your applicant. At the next regular meeting of the Camp the committee will serve Cedar Camp's famous oyster sandwiches and we want a good turn out of the members present.

Red Men.

Minnewa Tribe, No. 52, Improved Order of Red Men, met in regular council on Friday night, with a good attendance of the chiefs and members. Brothers Henry Baker, Philo Swindle, W. N. Switzer and Walter R. Jones were reported as being unable to follow the hunt. The chiefs for the ensuing year were nominated and the election will be held on the first regular meeting night in December. The past sachems of Minnewa Tribe will vote for the chiefs of the great council of Ohio at the first regular meeting in December and we want every past sachem to be at the meeting to cast his vote for the great chiefs. We have 47 past sachems who are in good standing in the tribe and we want every one to be present on that night if possible. The adoption degree will be conferred on one paleface the first meeting in December and all members of the degree team are requested to be present. The Past Sachems' Association of District No. 5 endorses Bro. Edwin D. Emery of Octawau Tribe, No. 132 of Greenfield, for the candidate for the stump of great junior sagamore, and the old wheelhorse, Bro. Thomas J. Irwin of Waneta Tribe, No. 7 of Martin's Ferry, O., for the candidate for the stump of great chief of records, and it is the desire of the Past Sachems' Association of District No. 5 that all past sachems of Minnewa Tribe vote for these two candidates. Don't forget, brothers, that the next meeting of the tribe is election night, and we want you present to cast your vote.

ATTENTION, LEMERT POST, G. A. R. Members of Lemert Post and all ex-soldiers are requested to meet at the Cedar Hill cemetery office Monday afternoon at 2:30 o'clock p. m., to attend the funeral of our late comrade, Lieutenant Charles Babbitt.

ON STILTS

Two Germans Will Attempt to Circle Globe on Wager of \$5,000.

New York, Nov. 26.—For a wager of \$5,000 two German acrobats will attempt to circle the world on stilts. They have obtained a promise of police protection from Commissioner Cropsey for the first leg of their journey through the crowded streets from City Hall to the Jersey City ferry, and from there they will make their way to Philadelphia.

The young men are Albert Marder and Hans Hoeldamp, until recently employed as stewards on a transatlantic liner, and the purse they hope to win was raised by the Steamship Stewards Verein of Hamburg.

"We are expert stilt walkers," they said today. "We expect to walk 11 hours a day and we can travel five and a half miles an hour. We are not allowed to take any money with us, and count on making a living by selling picture post cards. We will work our passage on the ocean laps of the journey."

Cures Sore and Tired Feet.

Ordinary antiseptic vilane powder has many valuable uses, but probably few persons know what wonderful power it has over sore, tired, aching or calloused feet. It draws all the soreness out, checks excessive perspiration, prevents congestion and cold feet, while it removes corns, burrs and callouses. Many physicians know its worth, and the public can be saved much suffering by this knowledge being imparted.

If the reader wishes to try it, obtain any leading druggist two ounces of vilane powder. To a gallon of steaming water add a teaspoonful of the powder and keep the feet immersed from 10 to 20 minutes every night for several weeks.

ATTEMPTED TO KILL HIS WIFE

Hamilton, Nov. 26.—Released from jail on Thanksgiving eve, after serving over nine months, Charles A. Regan went to Middletown and tried to kill his wife, Clara, who secured a divorce from him a few months ago. Regan cut his wife's throat in several places and almost touched the jugular vein. The left ear was almost severed. Neighbors rescued Mrs. Regan from the maddened man. On the way to the police station Regan attempted to throw a bottle of carbolic acid in the face of one of the policemen.

Mr. and Mrs. Regan have two children. She will recover. Regan has been in trouble several times.

FALLING HAIR

Easy to Stop It and Make it Lustrous and Beautiful.

If your hair is falling out; if you have dull, unattractive hair, or if you need a daily hair dressing, read what Mrs. Hettie Heidman of Nelsonville, Erie county, Ohio, writes June 3, 1918, about Parisian Sage: "I used Parisian Sage for falling hair and find it the finest thing I ever heard of. My hair was falling out by combs full, and I could run my fingers through it and they would hang full of loose hair. I washed my hair and got a bottle of Parisian Sage and used two applications, and I could see a great difference. My hair was lustrous and nice and had almost stopped falling out, and by the use of one more bottle it stopped altogether."

For women, for men or for children, Parisian Sage is without any doubt the finest preparation for the hair. It is guaranteed by Evans' drug store to stop hair from falling; to eradicate dandruff and stop itching scalp in two weeks, or money back. It is most daintily perfumed and refreshing hair dressing, free from grease or stickiness, and ought to be in every home where every member of the family could use it daily. Large bottle 50 cents at Evans' drug store and druggists everywhere. The girl with the Auburn hair is on every package.

OBITUARY

ROBERT RINKER. Robert Rinker, aged 68, a former resident of Newark, died very suddenly at the hotel in Reynoldsburg Friday afternoon.

Mr. Rinker had been ailing for the past two weeks, but never complained of being seriously ill, and Friday morning about 11 o'clock he felt better and was carried to his room. He soon rallied and talked to his assistants, and they left him, thinking he had completely recovered. At one o'clock he was found dead. Death was resultant from paralysis.

The deceased survived by six brothers and two sisters, his wife and son having preceded him in death. He has been making his home in the hotel at Reynoldsburg.

The funeral services will be held Sunday morning at 10 o'clock at the home of Samuel Chamberlain in Reynoldsburg, Rev. Mr. Watson officiating. Interment at Wataskala.

TABITHA KUHN.

Tabitha Kuhn, whose maiden name was GIB, was born in Fairfield county, Ohio, August 29, 1831, and died at her home in Luray, Licking county, Ohio, Nov. 13, 1918, at the age of 79 years 2 months and 14 days. Her first marriage was to Peter Lamb. To them were born two children, a son and a daughter. After the death of her first husband she was married to her now bereaved husband, Jacob Kuhn, Jan. 17, 1867. To them were born three children, a son and two daughters. In the summer of 1869 she professed faith in Christ, was converted and joined the Methodist Episcopal church in Millersport, Ohio, and afterward her membership was transferred to the church in Hebron, Ohio. In this membership she remained a faithful and true until called to a woman of high ideals as to morals and religion, and was earnestly and sincerely devoted to her church, her home, her family and her friends. Her faith in God was strong and unwavering. Spiritual things were as real and as much a matter of fact to her as temporal things. She had great peace and joy in her religious experience. Her last years were attended with constant illness and at times great suffering, all of which she bore with surprising patience and fortitude and was never heard to murmur or complain. She retained her faculties to the last and in her last days she spent much of her time in prayer and was often heard to pronounce the name of Jesus. She left a clear testimony to Christ's power to save, and gladly welcomed death as a happy release from her sufferings. She leaves her husband, four children, nine grandchildren and one great-grandchild to mourn her departure.

Funeral services were conducted from the home by the writer and were attended by a large number of sympathizing neighbors and friends. Her body was laid to rest in the Kirkersville cemetery.—John R. Tibbels.

MRS. EMMA W. NEWTON.

Mr. Henry D. Woodbridge of the Franklin National Bank, received a telegram Saturday morning announcing the death of his sister, Mrs. Emma W. Newton, who lived with her son, Harry S. Newton, superintendent and general manager of the electric road at Enfield, Conn. Mrs. Newton was stricken with paralysis a week ago and died Saturday. The remains will be brought to Newark and private funeral services will be held at the home of Mr. Woodbridge on Monday.

Mrs. Newton, widow of Chauncey Newton, was about 66 years of age. Twenty or more years ago she lived on Indiana street, this city, and is remembered very kindly by the older residents of Newark. Besides her sons, Harry S. and Chauncey Guy, who is in the coal business at Dennison, Ohio, Mrs. Newton leaves two brothers, Henry D. of Newark and Frank of Indianapolis, and one sister, Mrs. Falconer of Hamilton, Ohio.

MUNICIPAL DANCE OCCURS TONIGHT AT MILWAUKEE

Milwaukee, Wis., Nov. 26.—With Emil Seidel, Milwaukee's Socialist mayor, members of the city government and a number of prominent society women, parading in the grand march, what is probably the first municipal dance ever given in America will be held here tonight in the city Auditorium.

"Wallflowers," male and female, are to be barred and men and women prominent in the city's business, political and social life, will act as hosts in order to make the poorest guest feel at home.

When the grand march forms, Louis W. Viaz, eighty-two years old, and who was for nineteen years dancing master at West Point, will take the lead. He will be followed by Mayor Seidel.

It is declared by the Socialistic association of public play and social education that no matter whether a guest comes in a private automobile, a carriage or on foot all will be on an equal plane. The dance will end promptly at 11:30 p. m., and only soft drinks will be served.

QUIET REIGNS OVER MEXICO

Eagle Pass, Texas, Nov. 26.—With the whereabouts of Francisco I. Madero a mystery, the consensus of opinion here today is that the Mexican revolution is history. Quiet reigns all over Mexico and many troops are being returned to their barracks.

CUDAHY DYING IN HOSPITAL

Chicago, Nov. 26.—Michael Cudahy, millionaire head of the Cudahy Packing company, is dying here today in the Mercy hospital of pneumonia. Physicians at the hospital say he will hardly live out the day.

Cudahy, who is sixty-nine years old, was operated on for appendicitis last Tuesday by Dr. John B. Murphy, a Chicago specialist, and for a time seemed to rally and to give indications of recovery. However, pneumonia set in and today it is believed that all hope is gone.

FINES VS. PRISON.

Attorney General Wickham has seen a light, and seems determined to walk in it.

His experience with the window glass combine has taught him that monopolies cannot be crushed by the imposition of fines.

In undertaking hereafter to secure prison sentences for the individual law breakers who form corporate conspiracies for the fleecing of the public, he will have nine-tenths of the public behind him.

GRAND JURY HAS INDICTED FIGHT PROMOTERS

Chicago, Nov. 26.—Hope of reviving the fight game in Illinois was on the wane today, following the action of the Cook county grand jury which returned indictments against fight men, alleged to have been principals in a fistic carnival near here yesterday.

Heretofore conducting boxing shows has been classed as a misdemeanor, but the grand jury now in session set a new precedent by holding the offense as a felony in the indictments returned.

Promoters and followers of the boxing game were not the only ones surprised by the grand jury's action as court officials and State's Attorney Weimann declared they believe the indictments yesterday were the first ever returned in this state on charges of conducting a prize fight.

Heretofore persons staging fights have been merely arrested and fined but the members of present grand jury favored going after the prize ring game rough shed.

The men indicted yesterday are Oscar Dabbs, George Johnson, John Heinen, Frank Hitchcock and Frank Lewis.

Temporary Heat Quickly

Did you ever stop to think of the many ways in which a perfect oil heater is of value? If you want to sleep with your window open in winter, you can get sufficient heat from an oil heater while you undress at night, and then turn it off. Apply a match in the morning, when you get out of bed, and you have heat while you dress.

Those who have to eat an early breakfast before the stove is radiating heat can get immediate warmth from an oil heater, and then turn it off.

The girl who practices on the piano in a cold room in the morning can have warmth from an oil heater while she plays, and then turn it off.

The member of the family who has to walk the floor on a cold winter's night with a restless baby can get temporary heat with an oil heater, and then turn it off. The

PERFECTION SMOKELESS OIL HEATER. Absolutely smokeless and odorless.

Is invaluable in its capacity of quickly giving heat. Apply a match and it is immediately at work. It will burn for nine hours without refilling. It is safe, smokeless and odorless. It has a damper top and a cool handle. An indicator always shows the amount of oil in the font.

It has an automatic-locking flame spreader which prevents the wick from being turned high enough to smoke, and is easy to remove and drop back so that the wick can be cleaned in an instant.

The burner body or gallery cannot become wedged, and can be quickly unscrewed for reworking. Finished in Japan or nickel, strong, durable, well made, built for service, and yet light and ornamental.

Daddy's Bedtime Story—

Two Adventures Of Tom Thumb

CHILDREN," said daddy one evening. "I think you have heard of Tom Thumb, the famous little man, who was so called because he was no bigger than a man's thumb. I am going to tell you tonight of two things that happened to Tom Thumb.

"For all his tiny size, Tom was a very inquisitive creature. He wanted to know all that was going on around him, and often his curiosity got him into trouble. That was the case one day when his mother was making batter pudding. She had given Tom some bread and honey to get him out of the way, but when she was not looking—he was so tiny that she could hardly see him anyway—he climbed up on the edge of the dish and fell into the batter.

"His mother did not see him and kept on stirring the pudding. Tom fell in head first, so that his mouth was filled with the batter and he could not cry out. But on feeling the hot milk he commenced to kick and struggle so that his mother thought the pudding was bewitched, and she pulled it out of the pot and threw it out of the door, with Tom in it and all.

"There was a poor peddler passing by with his bag on his back. When he saw the pudding come flying out of the kitchen door he said to himself: 'What luck! Here's a fine pudding for me.' And he picked it up and put it into his bag. He walked off a little distance with it, but by that time Tom had got his mouth clear of the batter and commenced to cry out. It frightened the peddler badly, you may be sure, to hear a voice, although only a wee little one, coming from his bag, so he took the pudding out and threw it away.

"Then Tom, all covered with the batter, ran home. His mother put him into a teacup and gave him a bath and clean clothes to wear.

"Tom used to wear a hat made out of a part of a small cabbage leaf. One time his mother took him with her when she went to milk the cow in the meadow, and to prevent the wind from blowing him away she tied him to a blade of grass with a string. The cow, seeing the nice, fresh green leaf near her and not seeing little Tom under it, picked up the leaf.

"Tom had hard work to keep from being crushed. He cried out: 'Mother, mother!'

"Where are you, Tommy, my dear Tommy?' said his mother.

'Here, mother,' said he, 'in the cow's mouth.'

'His mother began crying, but just then, to Tom's luck, the cow, frightened by the odd noises in her mouth, opened it and lowered her head, letting Tom fall. His mother picked him up. He was unharmed, but scared."

for \$5000 and not for \$10,000, as
previously stated.

The statute, Section 6282 of the
General Code, limits the recovery in
such cases to a sum not to exceed
\$5,000 damages. This statute also
provides that the money recovered
shall be applied to the maintenance
of the family and education of the
minor children, and that if there is
no widow nor minor children, as was
the case of Etherington, the money
shall go to the next of kin.

The particular language of the
statute gives the jury some discretion
as to the amount to be recovered and
it would seem from this language
that the amount which ought to be
recovered should depend to some ex-
tent at least as to whether the vic-
tim left a widow and children de-
pendent upon him, in which case re-
covery would likely be for the full
amount, or whether his next of kin,
or more remote relatives, in which
case a lesser amount would be the
proper recovery. It is more than
likely that the commissioners of
Licking county will make a defense
along these lines.

Officials Notified.

The county commissioners Satur-
day were officially notified that Geo.
Bohon, as administrator of the estate
of Carl Etherington, who was lynched
in Newark on the night of the 8th
of last July, had commenced suit in
the United States court at Columbus
against the county for \$5,000 damages
for the death of Etherington. The no-
tice was signed by Eugene L. Lewis
United States marshal, and Nelson &
Rector, plaintiff's attorneys.

Real Estate Transfers.

James F. and Anna Winice to John
G. Catlin lot 50 in Beard's addition to
Jacksontown, \$400.

Anna Chidester to Oa Stetler, real
estate in Jacksontown, \$450.

thinking I was a doomed victim of
consumption, I might not be alive
now," writes D. T. Sanders of Har-
rodsburg, Ky., "but for years they
saw every attempt to cure a lung-

NO USE FOR PHYSICIANS OR UNDERTAKERS

St. Paul, Nov. 26.—Clear Lake,
a village 65 miles out on the Great
Northern railway from St. Paul, is so
healthy it needs neither physician nor
undertaker. This little Minnesota
town is one of a very few, if not the
only one in the country having 500
inhabitants, that can say that doctors
and undertakers are not included in
its population.

Bulletin 108 on mortality statistics
for 1909 issued by the United States
census bureau recently gave St. Paul
with its death rate of 11.4 per thou-
sand and inhabitants as the nation's health-
iest city in the 100,000 class. St. Paul
naturally felt pretty proud of the
honor but the Capital City of the
Gopher state takes off her cap to Clear
Lake. The census bureau has issued
no official statement relating to the
death rate in Minneapolis, but the
Twin City has been claiming that her
death rate is lower than St. Paul's. It
seems that there will be glory enough
for both in having Uncle Sam say
that the Twin Cities are the healthiest
in his union, whichever may have a
fractional part of the best of it when the of-
ficial figures are given out.

Clear Lake is one of the most at-
tractive and prosperous towns in Sher-
bourne county. It has a newspaper,
bank, stores and all the industries that
might be expected in a thriving com-
munity of 400 or 500 people, but nary
a doctor nor an undertaker.

The doctors would like to live here

but what's the use? The average doc-
tor is not in business in a locality for
his health, but to supply health to
others. Everybody in Clear Lake has
an ample supply of health. About the
only ailment that ever afflicts the in-
habitants is old age. A few get that
but even old age has been staved off
to a remarkable extent. Clear Lake
will welcome any physician who has
a cure for old age. A doctor who goes
there expecting to treat typhoid fever,
pneumonia or any patient suffering
from the usual diseases of mankind
will not make his salt.

Talk about the need of opening

heard with plenty of frequency in the
near future. In spite of the rebuke
which the last election carried to Bal-

of the Guggenheims. When this talk
gets lively, do not forget that the

Columbus, Nov. 26.—The delay in
general communication incident to the

contributions to find their way to the
state headquarters of the W. M. C. A.
Friday morning the total re-
ported was \$73,600. The report sent
out on Wednesday was \$71,147. Of the
difference between these sums \$1,200

of small contributions.

is expected to be one of interest, and
every member is urged to be pres-

poorly, and not able to be out, but
the workers should be more deter-

You Can Be a Better Cook

It isn't all in the "knack." The utensils you use go a long way toward making your food fine and appetizing or ill-cooked and indigestible.

It's impossible to make the best cookery in utensils that quickly scorch or crack and scale off, rust and corrode. And such utensils are dangerous. Authorities say that cancer comes of eating particles of glass chipped off from ordinary enamel ware when hot.

The heat expands the iron frame but the coating of glass—which is all enamel ware is—does not expand so fast, consequently it breaks and gets mixed with the food.

There is no such danger from food cooked in up-to-date

"1892" Pure Spun Aluminum Ware

MARK TWAIN

A New Edition

1/2 Price

Now for the first time you get a complete set of all Mark Twain's writings at just exactly one-half the price they have ever been sold before. This is a new edition, just as complete as the old one, which still sells, by the way, at \$50.00. This new edition is only \$25.00—for the 25 volumes.

It had been Mark Twain's ambition to have his books in every American home, and he made a great personal sacrifice to bring about this remarkable opportunity—for the first time in the history of publishing, copyrighted books are sold at the price of non-copyrighted books—the chance will not come again.

But for Mark Twain's action this would have been impossible. Never before has a copyrighted library set of a standard author's works been issued at such a low figure.

His Complete Works—25 Beautiful Volumes

Brander Matthews says: "Mark Twain will be included in that group of writers headed by Moliere and Cervantes. With the exception of Count Tolstoi, Twain was the greatest of recent modern writers, and will be handed down to posterity through the trio of his works 'Huckleberry Finn,' 'Tom Sawyer,' and 'Pudd'nhead Wilson.' Twain is a greater stylist than Stevenson or Thoreau, and his 'Man that Corrupted Hadleyburg' is one of the best stories in English literature." Mark Twain himself wrote a preface to this edition. Brander Matthews has written the biographical criticism of Mark Twain and his work. There are portraits of the author at periods when the different books were in process of writing.

There are beautiful pictures by such artists as Frost, Newell, Smedley, Thelstrom, Clinesmith, Kemble, and Oppen. The binding is in rich red rep silk book cloth, with title labels stamped in gold. The books are printed on white antique wove paper, especially made for this edition. Each volume is of generous size and bulk, 6 3/4 x 9 1/4 inches.

FOOTBALL GIANT

And How He Was Inspired to Win a Champion Game.

By ARNOLD TRACY.

(Copyright, 1910, by American Press Association.)

"I have called," said Captain Ben Tucker of the Parkington football team to Miss Ethel Storm, on a matter of a very delicate nature.

"Indeed," said Miss Storm, opening a pair of big brown eyes enlabeled by long black lashes.

"Yes, extremely delicate. Indeed, I scarcely know how to begin."

"There was a pause, during which Captain Tucker was pumping up his courage, or rather looking for a way to state his case that would be least offensive. Finally, with a last shudder, he went on:

"You are aware, I suppose, that in a few days our team meets the Stanwigs in a final try for the season's championship."

"I am," said Miss Storm.

"You may be also aware that there is one man on whom depends our success or failure."

"Who is this?"

"Perhaps you have heard of Miles Stanford."

"I am acquainted with him."

"I am pleased that you admit the acquaintance. It is a step forward. Now we shall get on. Mr. Stanford is suffering from a mental malady which renders him unfit for putting forth his best efforts on the gridiron. Though the game is near at hand, I can't get him to practice with any spirit. He gets the signals mixed, doesn't remember anything he is told, and often when he might seize the ball and carry it untroubled to goal, he stands on the field in a day dream. When I shout to him he starts as if awakened."

"And may I ask," said the girl, opening wide her beautiful eyes, "what all this has to do with me?"

"Captain Tucker, having led up to the subject in question, being now face to face with it, was abashed. The girl would not aid him."

"He's dead in love with you, and you are standing him off. Why the deuce can't you give him a sop till after the game? Then I don't care what you do with him."

"Miss Storm controlled a desire to laugh. The affair between the petite Miss Storm and the gigantic Mr. Stanford was being watched by the numer-

ous friends of both with interest and amusement. And just before the big game was to come off, as bad luck would have it, Stanford had taken it into his head to propose to her and she had cast him into a slough of despondency by refusing him.

"Mr. Tucker," she said gravely, "are you aware of the breach you are making?"

"Oh, for heaven's sake, don't play me. I'm not in that game at all. Just now I'm absorbed in winning this match between our team and the Stanwigs. If you don't help us or stop standing in our way, whichever you choose to call it, the jig's up. We can't beat them with Stanford in his present condition, and if you'll only go soft on him for three days the championship will be ours."

The girl stood looking at him with an expression that neither he nor any one else could read. The expression on his own face was one of infinite vexation.

"Mr. Tucker," she said at last, "you overrate my influence with Mr. Stanford. I should be happy to aid you if it were in my power, but unfortunately Mr. Stanford is his own master."

This was said with such icy severity that Tucker did not feel warranted in pursuing the subject further. "I regret," he said, "to have felt it necessary to trespass upon your private affairs and trust you will consider my interest in the coming match, as well as the good of the whole team, an excuse and forgive me."

"You are forgiven," said Miss Storm, putting out her hand.

Tucker grasped it thankfully and in his gratitude for being forgiven squeezed it so hard in his brawny fist that he called forth a cry and was obliged to ask to be forgiven again. Then he went away feeling that the championship was as good as lost.

During the next few days the captain nourished a faint hope that after all Miss Storm would relent and that she would notice in the practice games a change for the better in Stanford.

But the great bulk of a man lumbered over the field like a ship in the rollers without a breeze.

There was nothing to do but play the game and take the consequences. The captain and all the team expected that their enemies would have a walk-over. But what could they do? Stanford would not only fail to be the tower of strength to them he should be but was liable to be a positive injury. Every man of the team went on the gridiron with despair written in his face. The Stanwigs, on the contrary, had got wind of the fact that something was wrong with their opponents and were moved with hope.

The consequence was that during the first half the Parkingtons did themselves great injustice, while the Stanwigs played better than they had ever before. Tucker just before the game opened had sworn like a trooper at Stanford, using terms of sovereign contempt, hoping to touch his pride. It had simply concentrated his attention on the game sufficiently to prevent his making any blunders.

The second half was about to begin, with 6 to 0 in favor of the Stanwigs, when Captain Tucker heard a voice behind him say:

"A lady at the grand stand wants to see you, Stanford."

Turning, Tucker saw Stanford walk away.

"Come back here!" shouted the captain of the Stanwigs. "Time's called."

"Go on!" thundered Tucker.

Stanford proceeded, watched by his captain. Tucker saw him go to the grand stand, and on drawing near it he was beckoned to by Miss Storm.

"Great heavens!" muttered Tucker. "Can it be that she's going to set him up?"

He saw Miss Storm smile on Stanford, whisper something to him, give him her hand and send him away. The big man came running with the swiftness of a gazelle on to the field.

Tucker passed the word among his team, that something had happened, and they lined up with a supreme confidence, every man in condition to do his best.

Strange it is how under certain circumstances what is not known becomes known. It was probably not five minutes between the reception of Stanford's summons and the beginning of the second half, yet it was known everywhere on the oval that a change had come over the conditions pertaining to the game. In the first place, a large number of Miss Storm's friends, sitting about her saw Stanford approach her, listen to her whispered words and receive the pressure of her little hand. They saw, too, a sudden gust of joy sweep over his face. Then they followed him with their eyes as he bounded toward the center of the gridiron. The news was disseminated by a hundred voices, which in turn told it to a hundred more, and so on till it was common property that a great advantage had come to the Parkingtons. What that advantage was only the inner circle knew. Parkington rooters yelled themselves hoarse; Stanwigs rooters' voices seemed to have been smothered.

"What is it, Stanford?" Tucker asked just before the ball was put in play.

"If this game is won," replied the Hercules, "I'm in paradise; if it is lost I'm in the other place."

"Then it's won, by thunder!"

From the reopening of the game Stanford, who had during the first half attracted attention because of the uselessness of a man who might be infinitely useful, converged the eyes of all present. Scarcely had the game recommenced when he got possession of the ball, and, warding off a tackle on his right with his free arm and launching his ponderous body on another tackle, he got beyond the enemy's line and, like a mountain suddenly equipped with wings, flew to goal.

Again, when two wedges were ramming each other, Stanford by that seemed the effort of a Titan forced his way through the mass before him and with a few contortions ridding himself of the clingers made a side run and another touchdown.

The yell that went up from the rooters of both sides was like a dozen thunderstorms.

And so the game went on. In half an hour the score, which had been 6 to 0 for the Stanwigs, stood 12 to 6 for the Parkingtons. Stanford, who considered the game won, permitted his mind to drift upon the blessedness in store for him. One of the enemy, taking advantage of his inattention, passed the ball to another, who passed it to a third, and this man took it to goal.

"Wake up!" yelled the Parkington rooters.

Stanford did wake up and, since there were but eight minutes left, made the best use of them. As if to atone for her negligence, he swung himself about, his enemies going down before him like pygmies. Finally, when time was called the game stood 14 to 10 in favor of the Parkingtons.

Hercules, instead of beating the world on his shoulders, was borne on the shoulders of the world. Stanford was carried off the field by his comrades amid the confusion of a break-in on the gridiron by a multitude of spectators.

Captain Tucker considered what could with propriety be done to show Miss Storm the appreciation of himself and his team for having saved the game. He had met with an icy reception on trespassing on her private affairs and had no mind to trespass again. He called a meeting of the team and asked for suggestions. The result of the deliberations was that the same evening Miss Storm received a box inclosed with mother-of-pearl containing ten pounds of candy. Nothing to mark the donor accompanied it, but Miss Storm knew very well that it was the gift of the winning team.

There was nothing to do but play the game and take the consequences. The captain and all the team expected that their enemies would have a walk-over. But what could they do? Stanford would not only fail to be the tower of strength to them he should be but was liable to be a positive injury. Every man of the team went on the gridiron with despair written in his face. The Stanwigs, on the contrary, had got wind of the fact that something was wrong with their opponents and were moved with hope.

The consequence was that during the first half the Parkingtons did themselves great injustice, while the Stanwigs played better than they had ever before. Tucker just before the game opened had sworn like a trooper at Stanford, using terms of sovereign contempt, hoping to touch his pride. It had simply concentrated his attention on the game sufficiently to prevent his making any blunders.

The second half was about to begin, with 6 to 0 in favor of the Stanwigs, when Captain Tucker heard a voice behind him say:

"A lady at the grand stand wants to see you, Stanford."

Turning, Tucker saw Stanford walk away.

"Come back here!" shouted the captain of the Stanwigs. "Time's called."

"Go on!" thundered Tucker.

Stanford proceeded, watched by his captain. Tucker saw him go to the grand stand, and on drawing near it he was beckoned to by Miss Storm.

"Great heavens!" muttered Tucker. "Can it be that she's going to set him up?"

He saw Miss Storm smile on Stanford, whisper something to him, give him her hand and send him away. The big man came running with the swiftness of a gazelle on to the field.

Tucker passed the word among his team, that something had happened, and they lined up with a supreme confidence, every man in condition to do his best.

"What is it, Stanford?" Tucker asked just before the ball was put in play.

"If this game is won," replied the Hercules, "I'm in paradise; if it is lost I'm in the other place."

"Then it's won, by thunder!"

From the reopening of the game Stanford, who had during the first half attracted attention because of the uselessness of a man who might be infinitely useful, converged the eyes of all present. Scarcely had the game recommenced when he got possession of the ball, and, warding off a tackle on his right with his free arm and launching his ponderous body on another tackle, he got beyond the enemy's line and, like a mountain suddenly equipped with wings, flew to goal.

Again, when two wedges were ramming each other, Stanford by that seemed the effort of a Titan forced his way through the mass before him and with a few contortions ridding himself of the clingers made a side run and another touchdown.

The yell that went up from the rooters of both sides was like a dozen thunderstorms.

And so the game went on. In half an hour the score, which had been 6 to 0 for the Stanwigs, stood 12 to 6 for the Parkingtons. Stanford, who considered the game won, permitted his mind to drift upon the blessedness in store for him. One of the enemy, taking advantage of his inattention, passed the ball to another, who passed it to a third, and this man took it to goal.

"Wake up!" yelled the Parkington rooters.

Stanford did wake up and, since there were but eight minutes left, made the best use of them. As if to atone for her negligence, he swung himself about, his enemies going down before him like pygmies. Finally, when time was called the game stood 14 to 10 in favor of the Parkingtons.

Hercules, instead of beating the world on his shoulders, was borne on the shoulders of the world. Stanford was carried off the field by his comrades amid the confusion of a break-in on the gridiron by a multitude of spectators.

Captain Tucker considered what could with propriety be done to show Miss Storm the appreciation of himself and his team for having saved the game. He had met with an icy reception on trespassing on her private affairs and had no mind to trespass again. He called a meeting of the team and asked for suggestions. The result of the deliberations was that the same evening Miss Storm received a box inclosed with mother-of-pearl containing ten pounds of candy. Nothing to mark the donor accompanied it, but Miss Storm knew very well that it was the gift of the winning team.

But the great bulk of a man lumbered over the field like a ship in the rollers without a breeze.

There was nothing to do but play the game and take the consequences. The captain and all the team expected that their enemies would have a walk-over. But what could they do? B. & O. SHOPS

Y. M. C. A.

COLUMBUS WILL MAKE EFFORT TO SECURE THEM FOR THE CAPITAL CITY.

Representatives of Chamber of Commerce Will Go to Washington and Baltimore for that Purpose.

Columbus, Nov. 26.—S. P. Bush, president of the Buckeye Steel Casting company, and one other well-known business man to be selected will go to Washington and Baltimore shortly to represent the chamber of commerce in its efforts to obtain for Columbus the mammoth new railway shops to be built by the Baltimore and Ohio railroad.

But his associate will accomplish a notable achievement if they are successful, for the shops will open with 2,500 employees and a weekly payroll of \$70,000, or \$3,640,000 annually. Many of the employees in similar shops are highly paid mechanics and have families. These shops, it is believed, would add 15,000 inhabitants to the population of the city.

Members of the chamber of commerce have been dorking on the project since it was announced recently that B. & O. officials contemplated building large shops to meet demands of an increasing traffic in the central states.

Representatives of the chamber have learned from the railroad officials that the new shops probably will be built in an Ohio city. Should they be constructed in Columbus the Newark shops probably would be closed.

Although several B. & O. railway officials have denied that the shops are to be built, information has been received from Washington that the officials would be glad to receive inducements from cities of considerable size along the lines.

Members of the chamber of commerce say they will wage a vigorous campaign until a site is selected.

SHAKESPEARE READER DEAD.

Boston, Mass., Nov. 26.—George Riddle, the well-known Shakespearean reader, died in the hospital today following a sudden attack of a cerebral trouble.

master, proved again his happy faculty for saying and doing just the right thing right on the spot. Every boy was his friend in two minutes. Each delegation was called on for a response, and gave songs, yells, or responses of some sort. It was an interesting and entertaining 15 minutes.

Then Ed. S. Connor, of Cleveland, coach of Lincoln High School, Cleveland, Ohio, and teacher of mathematics, gave a most forceful talk. He told some good stories too and his appeal to build a good "physical" and a strong "mental" life, then combine the two into a soul or character that was not only fit for a struggle but eager for it.

He was heard with great attention and the note of "genuineness" was so strong that every boy could not but be tuned up to his best.

Saturday morning the session opened at 9 o'clock in the hall of the Y. M. C. A. with Mr. Vickery presiding. The devotional service was led by R. A. Waite and then a discussion was held by six of the delegations. Each contingent was allowed five minutes and Canton, Dayton, Medina, Lima, Toledo and Ashland each brought forward some difficulty that they had found hard to overcome in the life of the association and some of the successful methods adopted by the different towns. The suggestions offered were beneficial to all. The discussion was led by A. G. Bookwalter, state secretary of Ohio, and under his direction many new ideas were brought to light by the delegates.

M. G. Bailey of Columbus devoted some time and treated in a capable and interesting way the subject of having Camp Budd, a farm for a permanent boys' camp. Here the boys might meet each year and enjoy the outdoor life, the environments of a well conducted camp under military discipline and have the aid of the association. Mr. Bailey was followed by A. H. Lichty, college secretary for Ohio, and he spoke on "The Boy Who Goes To College." Mr. Lichty showed the advantages of a college life and the inclinations that might arise when a boy is away from home life. He exhaustively treated his subject and held his audience until his conclusion.

At this evening's session there will be a question box and questions will be asked and answered by the delegates.

The first Sunday session will be a meeting for boys from 12 to 19 years old which will be held at the High School auditorium. It will be addressed by Dr. Winfield Scott Hall of Chicago.

The closing session of the conference will occur at 7:30 o'clock and will be led by R. A. Waite. Hamilton, Ohio, has a delegation that is working hard to land the convention for 1917 and deciding vote will be taken at tonight's meeting.
